VILLAGE NURSERIES

Jos. H. Black, Son & Co.
PROPRIETORS

HIGHTSTOWN, NEW JERSEY.

JOS. H. BLACK.

WALTER C. BLACK.

Trees by Express or Freight.—The weight of trees and plants varies with sizes and varieties. When packed their average weight will be about as follows: Apple, Pear, Plum, Cherry, and Peach trees, first-class, 150 lbs. per 100; second-class, 100 lbs. per 100; Grapes, Currants, and Gooseberries, 2 yrs., 30 lbs. per 100; Blackberries and Red Raspberries, 10 lbs. per 100; Black Raspberries, 15 lbs. per 100; Strawberries 40 lbs. per 1000.

Guarantee and Conditions of Sale.

We have no connection whatever with any other nursery, and our responsibility extends only to persons purchasing direct from us. We also disclaim any responsibility for failure arising from defective planting, or from subsequent faulty treatment or cultivation, and we are not in any respect responsible for any loss or damage arising from any failure therefrom.

While we exercise the greatest care to have all trees, shrubs and plants sold by us true to name and free from disease, and hold ourselves prepared to replace, on proper proof, all that may prove to be otherwise, we do not give any warranty, expressed or implied, with respect to them; and all such goods are sold upon the express condition and understanding that in case any of them prove to be untrue to name, unhealthy or otherwise defective, we shall not be held responsible for a greater amount than the original price of the goods.

NEW JERSEY STATE BOARD OF AGRICULTURE.

No. 21, 1907.

OFFICE OF THE STATE ENTOMOLOGIST.

NEW BRUNSWICK, N. J., Sept. 4, 1907.

This is to certify that I have this 4th day of September, 1907, inspected the general nursery stock growing on the Village Nurseries, Jos. H. Black, Son & Co., proprietors, at Hightstown, Mercer County, N. J., and have found the same apparently free from San Jose Scale and other dangerously injurious insect pests; also that the examined stock seemed healthy.

I further certify that the nursery has a properly constructed house, 12x13x20 feet, for fumigating with hydrocyanic acid gas, upon which I have marked the quantity of cyanide of potassium required for an effective charge.

This certificate expires June 1st, 1908, and covers only stock actually on the nursery when examined

JOHN B. SMITH, State Entomologist.

ADVICE TO CORRESPONDENTS.

Address all letters, JOS. H. BLACK, SON & CO. (not to individuals),

HIGHTSTOWN, N. J.

Remit by Money Order on Hightstown, N. J., Registered Letter, Draft, or Express Money Order.

Directions for Ordering.—Write your name and address plainly, never omitting to give Post Office address, County and State. No matter how often you write follow the above directions. Always state distinctly the size and grade of stock ordered, as per the grades given in this Catalogue. We cannot change the grades from those given. **Be sure to give directions how to ship, whether by Mail, Express or Freight.** When these conditions are not complied with, we shall use our own judgment and ship the way we think best. Keep a correct copy of the order so that when the stock arrives you will know exactly whether or not you get that which you have ordered.

Prices in this Catalogue do away with all previous quotations. The prices are for the quantities named, but half-dozen, fifty and five hundred will be supplied at dozen, hundred and thousand rates, respectively. In ordering small fruits, single plants of a variety cannot be supplied at dozen rates. Payments invariably in advance. Goods sent by express C. O. D., only when one-half of the amount is sent with the order.

Packing.—All goods are packed free. Notwithstanding this fact, we use the utmost care and pack according to the distance and to our customers' best interests. Everything is labeled.

Shipping.—We deliver all goods free at Freight and Express office at Hightstown, after that they are out of our control and we are not responsible for them. State plainly to what points goods should be sent.

Claims.—All claims must be made immediately upon receipt of goods, at which time they will be carefully considered and adjusted.

Substitution.—Where no instructions in this respect accompany the order, we shall feel at liberty to substitute other varieties as nearly similar as possible. If the selection of varieties is left entirely to us, we shall send only such kinds as are acknowledged to give general satisfaction.

Shipping Season.—Our packing season commences in the Fall at 15th of October, and lasts as long as safe to ship, and in the Spring about March 1st, and continues until about the 15th of May.

How Far Do We Ship?—We can and have shipped to all parts of the United States, Canada and Europe. Having shipped plants in good condition to Australia and New Zealand, we feel assured that we can ship to all parts of the World.

Trees and Plants by Mail.—We make a specialty of filling Mail orders, and we call your attention to the prices given in this Catalogue on goods sent by Mail, post paid, to any part of the Country. **Positively we cannot send any stock by Mail unless it is quoted on fourth cover page.**

Acknowledging Orders.—We acknowledge all orders when received, and if you do not hear from us after a reasonable length of time, please duplicate your order, stating how much money you sent, and how it was sent, and then, being sure to sign your name, giving Post Office, County and State every time you write.

Note.—All quotations are for immediate acceptance, subject to stock being sold. No Liability to attach to us where frost, drought or other casualties beyond our control prevent delivery of stock that may be contracted for.

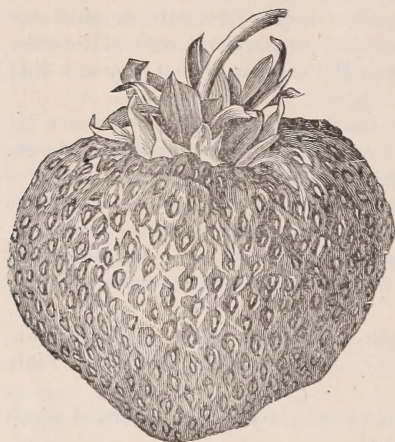

“Pedigree”

New Seedling Strawberries.

ELMA

Imperfect Bloom; Fertilize with Robbie.

PRICES.—50c. per dozen; \$1.00 per 100. By mail postpaid, 55c. per dozen; \$1.25 per 100.

Elma

Plant is a strong grower with healthy foliage, free from rust and disease, flower imperfect, berries large to very large of a very beautiful bright red. Elma is not quite so large as Nettie but later.

It is the latest strawberry that we have ever fruited. During the past five years of fruiting with us it has ripened from a week to ten days later than Robbie or Nettie, the two latest varieties ever fruited before we originated the Elma.

It is without question the coming late berry and it cannot be recommended too highly.

JOE

Perfect Bloom.

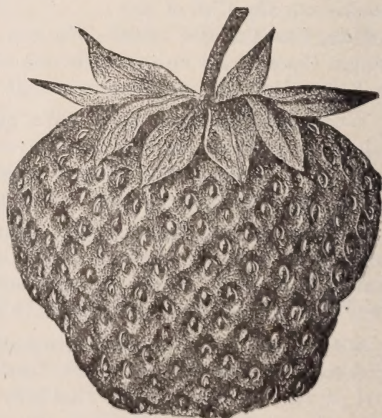

PRICES.—35c. per dozen; 75c. per 100; \$5.00 per 1000. By mail postpaid, 40c. per dozen; \$1.00 per 100. Season, medium to late.

Plant is unusually vigorous and long lived, and foliage is clean and healthy. Flower perfect, productive, and carries its fruit up well.

Fruit large to very large, and continues large to the end of the season, firm; in form it is obtuse, conical and very uniform in size; red with red flesh; quality good.

The Rural New Yorker reports: “Perfect flower, berries large to largest size, quite firm, medium red, red flesh of good quality. Vines of exceptional vigor.”

“It is a hardy, long-lived variety. June 17, at its height. Peduncle stout, holding the berries up well. We have never seen cleaner or thriftier foliage.”

Joe

MAIL ORDERS ONLY AT PRICES QUOTED ON 4th COVER PAGE.

NETTIE

Imperfect bloom; Fertilize with Robbie.

PRICES.—35c. per dozen; 75c. per 100; \$4.00 per 1000. By mail postpaid, 40c. per dozen; \$1.00 per 100.

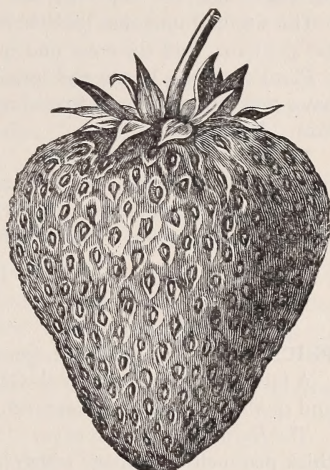

The largest strawberry that we have ever fruited.

It combines with this valuable quality the productiveness of Bubach, and the vigor of plant so prominent in Sharpless.

Plant and foliage exceptionally strong, vigorous, and healthy; flower imperfect; enormously productive; berries very large, bright red, exquisite quality. Ripens very late.

The Rural New Yorker says: "We must regard this as one of the most promising berries we have ever tried. The berries range from largest and are of goodly form, heart-shaped, and the seeds deeply imbedded. Each peduncle bears ten or more berries of quite uniform size, ripening not until June 20. They are moderately firm and of that kind of acidity that makes them of high quality when sugar is used. We again emphasize the fact that this is the most vigorous and productive variety. as judged by Fall-set plants, that we have ever tried."

"This proves our best variety of this season's trials. Berries from large to very large, and vines laden; color, between crimson and scarlet, medium firmness and quality; shape, broadly conical and quite regular. June 25: Vines still thrifty and bearing many berries, both ripe and green."

"Nettie"

ROBBIE

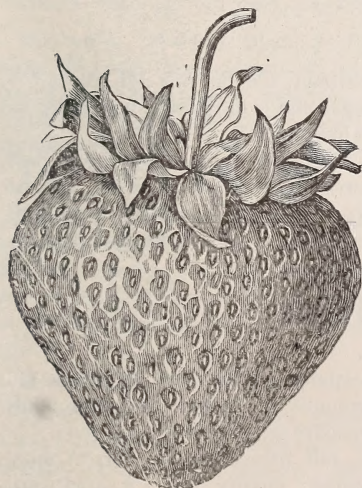

Perfect Bloom.

PRICES.—35c. per dozen; 75c. per 100; \$5.00 per 1000. By mail postpaid, 40c. per dozen; \$1.00 per 100

Strong robust plants, berries of great beauty, large size and wonderful productiveness.

Robbie is a strong plant, exceedingly vigorous, healthy and productive. Berries large, round, bright red, firm, and of exceptionally fine quality. Ripens very late.

The Rural New Yorker says: "Perfect flowers. Vines of unusual vigor and productiveness; berries well held up on strong, tall peduncles. June 11: Berries beginning to change color; form, broadly heart-shaped. The largest berries in our collection; pink flesh, splendid quality. We have rarely seen such large berries so well held up. June 21: Still bearing many berries of medium to large size and good quality. It is a valuable late variety."

Robbie

MAIL ORDERS ONLY AT PRICES QUOTED ON 4th COVER PAGE.

REBA

Imperfect Bloom; Fertilize with Joe.

PRICES.—35c. per doz.; 75c. per 100. By mail postpaid, 40c. per doz.; \$1.00 per 100.

The size and immense productiveness of this berry will particularly please the market gardener, and the color and quality is all that could be desired for home use.

Plant vigorous, hardy and long-lived. One of the most productive varieties that we have ever fruited; flower imperfect; fruit large to very large, bright red, good quality, firm. Mid-season to late.

The Rural New Yorker says: "Imperfect flower. Vines of unusual vigor, a few ripening, round shape, red flesh and of good quality. June 17: Height of season. It has been one of our most productive varieties. Size from large to largest; nearly round, crimson color. It is a hardy, long-lived variety."

HOWARD

Perfect Bloom.

PRICES.—35c. per doz.; 75c. per 100. By mail postpaid, 40c. per doz.; \$1.00 per 100.

A late variety ripening with Gandy and excelling it in productiveness also in color and quality of fruit. A very valuable market and garden variety.

The Rural New Yorker says: "Late strong, productive plant, berries carried on thick peduncles. Foliage tough and resistant. Very large berries, firm and well colored. Quality fair, better than Gandy. A very promising market sort."

CARRIE SILVERS

Imperfect Bloom; Fertilize with Howard.

PRICES.—35c. per doz.; 75c. per 100. By mail postpaid, 40c. per doz.; \$1.00 per 100.

Plant and foliage strong, vigorous and healthy; flower imperfect, enormously productive; berry large, bright red, good quality and firm. One of our very best market and canning varieties.

HAM

Perfect Bloom.

PRICES.—35c. per doz.; 75c. per 100. By mail postpaid, 40c. per doz.; \$1.00 per 100.

Very sweet and high quality, requiring no sugar and is in fact the best berry we have ever eaten and has foliage that is particularly healthy,

The Rural New Yorker describes it as follows: "Vigorous, with broad very dark foliage, productive in a high degree of large long berries, very dark in color, smooth and solid, flesh deep red. Excellent quality. Appearance and quality better than Marshall as grown here and much more productive. Early, but keeps up well throughout the entire season. An excellent table and home berry."

PROF. FISHER

Perfect Bloom.

PRICES.—35c. per doz.; 75c. per 100. By mail postpaid, 40c. per doz.; \$1.00 per 100.

The Rural New Yorker has tested it on their grounds in Bergen and Monmouth Counties and we give their description which we consider as good as can be given.

"Late, coming in with Gandy. Vigorous plants, tall broad foliage, berries large, sometimes coxcombed, smooth and firm, bright scarlet: quality fair. A great producer of fine showy berries."

MAIL ORDERS ONLY AT PRICES QUOTED ON 4th COVER PAGE.

MRS. FISHER

Imperfect Bloom; Fertilize with Prof. Fisher.

PRICES.—35c. per doz.; 75c. per 100. By mail postpaid, 40c. per doz.; \$1.00 per 100

A very healthy plant bearing very large berries and for the home market we do not know of a better berry.

The Rural New Yorker describes it as follows: "Late, vigorous, a good plant maker and bearer of fine berries. Fruit held up well on long peduncles, bright scarlet in color, fairly firm. Seems to be adapted to the near market."

HAZEL

Imperfect Bloom; Fertilize with Joe.

PRICES.—35c. per doz.; 75c. per 100. By mail postpaid, 40c. per doz.; \$1.00 per 100

Early to mid-season. Very vigorous in growth, broad dark green foliage, berries large, heart-shaped, deep scarlet, firm, very productive. The dense foliage shades the berries so that they ripen up well under the worst drought conditions.

The Rural New Yorker says: "Strong plants with heavy dark green foliage, berries large, firm and brightly colored, good table quality. Mid season."

SPECIAL OFFERS

By Mail Postpaid.

6 each of the 11 varieties of Pedigree Seedling Strawberries, value \$2.28 for \$1.50.

12 each of the 11 varieties of Pedigree Seedling Strawberries, value \$4.45 for \$2.25,

12 each of any 5 varieties, value \$2.15, your selection, \$1.25; our selection, 75c.

50 each of any 5 varieties, value \$2.63, or 100 of any 3 varieties, \$3.25, for \$1.75.

GENERAL LIST OF STRAWBERRIES

PRICES.—25c. per doz.; 60c. per 100. By mail postpaid, 30c. per doz.; 75c. per 100.

Bismarck. (Perfect Bloom.)—Berries large, firm and solid, colored all over, a brilliant scarlet. Quality excellent. Form regular, very productive and robust plant. Mid-season.

Price.—\$3.50 per 1000.

Brandywine. (Perfect Bloom.)—Plants vigorous, large, healthy, hardy and productive. Berries large, roundish conical, regular; uniform in size, handsome in color, and excellent in quality. Mid-season to late.

Price.—\$3.50 per 1000.

Bubach, No. 5. (Imperfect Bloom.)—Fruit is of uniform very large size; bright crimson color of good quality. Medium early.

Gandy. (Perfect Bloom.)—The berries are large, very uniform, of bright crimson color, handsome and showy, firm and of good quality. Requires good soil and culture.

Price.—\$3.50 per 1000.

Gladstone. (Perfect Bloom.)—Berries medium to large, firm, crimson, good quality. Plant strong, vigorous grower, with clean healthy foliage, productive. Mid-season.

Glen Mary. (Perfect Bloom.)—A great market berry, and considered one of the best north and west. The plants are very large, vigorous and productive. Berries are large, flesh dark red.

Price.—\$3.50 per 1000.

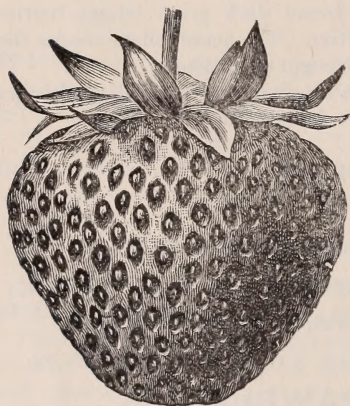

MAIL ORDERS ONLY AT PRICES QUOTED ON 4th COVER PAGE.

Chas. Downing. (Perfect Bloom.)—Fruit large, conical, regular; scarlet, firm, juicy, sweet, rich; plant vigorous and productive; a very valuable sort for family use and market. Season medium.

Price.—\$3.50 per 1000.

Climax. (Perfect Bloom.)—Plants strong and free from rust, immensely productive. Berry medium to large, ripening right after the very earliest and of good quality and remarkably firm.

Excelsior. (Perfect Bloom.)—Very early claiming to be earlier than Michels, medium size, firm, bright red, very productive.

Sen. Dunlap.

Success. (Perfect Bloom.)—Early, large, firm, bright crimson. It is the best early variety that we have ever fruited, being very early and prolific. The plant is exceptionally vigorous and strong.

No list is complete without the Success. It is all its name implies. For home use or for market we never expect to find a variety so universally satisfactory and profitable.

Price.—\$3.50 per 1000.

Tennessee Prolific. (Perfect Bloom.)—Very large, bright crimson, firm. Season medium.

Price.—\$3.50 per 1000.

Warfield No. 2. (Imperfect bloom.)—Dark red, one of the best for market. Mid-season.

Marshall. (Perfect Bloom.)—Large, the first of extra large varieties to ripen. The color is a rich glossy crimson.

Price.—\$4.00 per 1000.

Michels Early. (Perfect Bloom.)—One of the earliest; very productive.

New Home. (Perfect Bloom.)—Vigorous grower and an immense cropper on any kind of soil. Berry late and large, bright red, very firm; holding up well and especially adapted for long shipments. It is claimed that it will supersede Gandy entirely.

Price.—\$4.00 per 1000.

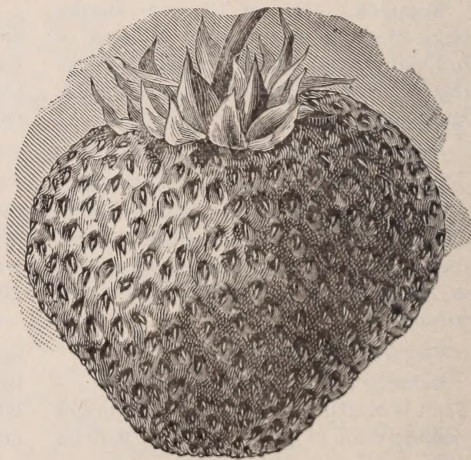

Sen Dunlap. (Perfect Bloom.)—Season early to mid-season. The plant is all that can be desired in a strawberry, vigorous, healthy, productive, almost rust proof and apparently well nigh drought proof. The fruit is of good size, regular and attractive in form, deep red in color without and within, firm in substance and excellent in quality.

Price.—\$3.00 per 1000.

Sharpless. (Perfect Bloom.)—Very large, irregular in shape. Mid-season.

Stevens' Late Champion. (Perfect Bloom.)—Plant a strong, vigorous grower, flower perfect. Berry, size and shape of Sharpless. Color, bright red, flesh firm and of the best quality. Productive.

Price.—\$5.00 per 1000.

Success

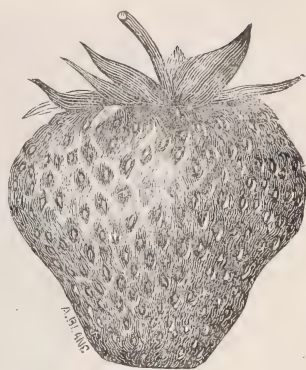

MAIL ORDERS ONLY AT PRICES QUOTED ON 4th COVER PAGE.

Nic Ohmer. (Perfect Bloom.)—The fruit is of the very largest size. It is dark glossy red, firm and excellent flavor. Medium to late.

Price.—\$3.50 per 1000.

Sample. (Imperfect Bloom.)—Sample has come to be one of the reliable standard varieties. It seems to be giving universal satisfaction in all sections. The plant is a strong vigorous grower, very productive texture firm, making an excellent shipper. The berries color all over at once, and look very pretty in the package. Large size, mid-season, fine quality, conical shape and regular in form, one of the best for market.

Price.—\$3.50 per 1000.

Sample

New Varieties.

Weich.—The plant is exceptionally vigorous holding its foliage until the wood is fully ripened and matured; this feature insures hardiness and the past severe winters through which it came unharmed, have demonstrated this quality without a shadow of doubt. Berry is larger than Miller, brighter and as firm.

Prices.—50c. per dozen; \$1.50 per 100.

Cardinal. (Red)—This most promising raspberry is another product of Kansas. It is a chance seedling which came up in a neglected clump of Gregg, there it showed itself of extra importance by growing far above the Gregg, and producing a great crop of red berries in contrast to the few scattering Gregg beneath it.

Its growth is of the strongest, making from ten to fifteen canes from one hill or plant, thus need more room than ordinary varieties. Very few thorns, practically thornless, propagates from tips and after the first year make strong upright growth, wood ripens well, leaves staying on late and very hardy, bearing, after the severest winters, an immense crop of fine, rich, plump, berries. The berries are large, dark red, with an agreeable, pure, rich flavor, which is brought to its highest perfection when canned, season rather late, and they hold on well.

Prices.—10c. each; 75c. per dozen; \$2.50 per 100.

Brilliant Raspberry. (Red)—A variety surpassing in productiveness, size, color, and hardiness the famous Miller. Ripens its fruit early and fast, producing bright, glossy, brilliant red berries, handsome; excellent and most attractive; canes very hardy, and when laden with brilliant red fruit, gladdens the heart of the grower. Being a remarkably good shipper, reaching market in all its brilliancy and firmness, it finds ready sale at good prices.

Prices.—10c. each; 75c. per dozen; \$2.50 per 100.

MAIL ORDERS ONLY AT PRICES QUOTED ON 4th COVER PAGE.

"HAYMAKER"

THE NEW
RASPBERRY

Haymaker. (Purple.)—A purple cap not so dark as Columbian or Shaffers and much larger and firmer than either of these varieties, never crumbles and stands up well in shipment. Sample crates have been sent to distant points with entire satisfaction. It is a berry to grow for either home use or market. The originator has found it the most profitable berry ever raised for market and has never yet been able to supply the local demand. We wish to emphasize its superiority as a canning berry. It has demonstrated its great merit in time of drought, having passed through several of the severest droughts ever experienced. The Haymaker bore an immense crop of fine quality, while other varieties furnished but half a crop or were an entire failure.

Prices—10c. each; 75c. per dozen; \$2.50 per 100.

Columbian (Purple.)—A most vigorous grower; thus enabling it to resist drought. It propagates from the tips and never suckers from the roots. It is very hardy. Fruit very large, often an inch in diameter; color dark red, bordering on purple; adhere firmly to the stem, and will dry on the bush if not picked; of rich, sprightly flavor the best for canning or evaporating, and probably the most productive of all raspberries.

Prices—10c. each; 75c. per dozen; \$2.50 per 100.

Other Varieties.

Cumberland (Black.)—Strong grower, productive, large berries, quality good; ripens in mid-season, and is worthy of trial by every fruit grower.

Prices—50c. per dozen; \$1.50 per 100.

Cuthbert (Red.)—A strong grower and productive; very large, bright red; fruit firm, of very fine quality, season medium to very late; a good one for market or home use.

Prices—35c. dozen; \$1.00 per 100.

Black Diamond. (Black.)—Strong, vigorous canes with numerous side branches all thickly set with fruit spurs. Berries about the size of Gregg. Ripens early, fine flavor. The sweetest berry known. The best market variety.

Price—50c. per dozen; \$2.00 per 100.

Kansas. (Black.)—The fruit is handsome, firm and of fine quality. Canes are strong, hardy and prolific, with clean foliage.

Prices—35c. per dozen; \$1.00 per 100; \$9.00 per 1000.

Loudon (Red.)—Its points of superiority are vigor of growth; large fruit, beautiful rich, dark crimson color, good quality, productiveness and hardiness. It stands shipping the best of any variety, and will remain on bushes the longest without injury.

Prices—50c. per dozen; \$1.50 per 100.

Miller (Red.)—Berry holding its size to the end of the season; will hold its color after shipment longer than any other red variety. The time of ripening is with the earliest.

Prices—35c. per dozen; \$1.00 per 100; \$8.00 per 1000.

Shaffers Colossal. (Purple.)—Yields an immense crop of dark red berries. The fruit is of a sprightly sub-acid flavor. This is a cap variety and increases from the tips like the black caps. One of the best for preserving purposes.

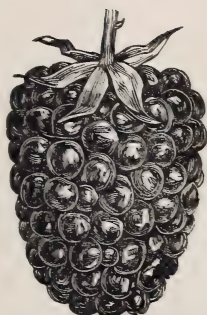

Prices—75c. per dozen; \$2.50 per 100.

MAIL ORDERS ONLY AT PRICES QUOTED ON 4th COVER PAGE.

Golden Queen (Yellow).

It is a sport of the Cuthbert, and possesses to a remarkable degree all the good points of its parents. The canes are of strongest growth, even more vigorous than its parents, with ordinary culture attaining a height of eight feet. The fruit is very fine, exceeding in size the Cuthbert, and is the highest in quality of all Raspberries, of a beautiful, translucent amber color, and exceptionally firm for so luscious a berry.

Price. 50c. per dozen, \$2.00 per 100.

Blackberries.**New Varieties.****"Ward."**

Ward.—Originated in Monmouth County, N. J., is supposed to be a chance seedling of Kittatinny, and as it was found near a patch of Wilson Early it is probably a cross between Kittatinny and Wilson. It combines the good qualities of both these varieties, being large, firm and as black as the Wilson, and the plant is free from rust, the parentage of the Kittatinny is apparent in the juicy sweetness of the fruit and the hardiness and wonderful productiveness of the plant.

The plant is remarkably vigorous and healthy, free from rust, well branched, yet making strong, erect fruiting canes, enabling them to carry and develop their immense loads of fruit. Foliage dark green, healthy and free from rust, blossom perfect, never showing a sign of doubling. Fruit immense in size, jet black in color, very firm, tender and melting, without core, and of the highest quality. Its unparalleled productiveness and splendid quality make it one of the best blackberries, if not the very best, for market and home garden.

Mr. Michael Holland, who is without doubt the most successful small fruit grower of this neighborhood, informs us that after thoroughly testing it he considers the Ward the most profitable blackberry he has ever grown. He picked in 1903 fifteen bushels of large firm fruit, from less than five hundred plants set in the spring of 1902. The fruit selling at an average of 2 cents per quart more than Wilson.

Prices.—50c. per dozen; \$2.00 per 100; \$17.00 per 1000.

**Eldorado.**

Eldorado.—The vines are very vigorous and hardy, enduring the winters of the far Northwest without injury, and their yield is enormous. The berries are large, jet black, borne in large clusters, and ripen well together; they are very sweet, melting and pleasing to the taste, have no hard core, and keep eight or ten days after picking with quality unimpaired.

Prices.—50c per dozen; \$2.00 per 100.

BLOWERS.—A mammoth grower and enormously productive. Berries big and luscious. An iron-clad variety that never winter kills.

Prices.—50c. per dozen; \$2.00 per 100.

MAIL ORDERS ONLY AT PRICES QUOTED ON 4th COVER PAGE.

Iceberg. (White.)—The well-known Lawton is, when ripened, unsurpassed, and very generally known as the most productive market berry. One of the parents of "Iceberg" was Lawton.

Very little attention was paid to the cross-bred descendants until this berry was discovered among its black relatives, with the cane bending in various directions with its load of delicious, transparent white berries.

Prices.—50c. per dozen.

Premo Dewberry.—Distinct from Lucretia and very early, being a week ahead of that variety and all gone by the time Lucretia begins to ripen while the quality and size are equal to and surpassing it.

Prices.—50c. per dozen; \$2.00 per 100.

Other Varieties.

Prices.—50c. per dozen; \$1.25 per 100.

Erie.—It is the best hardy variety yet introduced, very productive, not having failed in producing a fine crop each year since it was originated; foliage clean and healthy; fruit large, round in form, giving it the appearance of being larger than it really is. Good quality.

Snyder.—Extremely hardy, enormously productive, medium size, no hard, sour core.

Kittatinny.—Berries large, handsome and of a delicious flavor. Canes of strong.

Lucretia Dewberry.—The fruit which ripens before blackberries, is often one and one-half inches long by one inch in diameter, sweet and luscious throughout, without any hard center or core.

Price.—50c. per dozen; \$1.25 per 100; \$10.00 per 1000.

erect growth and productive. It is not safe from winter killing north of the latitude of New York City. Medium to late.

Lawton.—Fruit very large and black and of excellent quality; an abundant bearer. Late.

Rathbun.—Plant vigorous and productive, withstands drought well. Fruit large and handsome, without any hard core. Juicy and of highest quality.

Grasses.

Eulalia Gracillima.—Narrow green leaves with a silvery white mid-rib. For center of vases, as well as making an attractive lawn plant; perfectly hardy.

Price.10c. each; 75c. per dozen; \$5.00 per 100.

Eulalia Japonica Variegata.—A hardy perennial, with long narrow leaves striped with green and white.

Price.—15c. each.

Eulalia Japonica Zebrina.—Unlike all other variegated plants, this has its striping or marking across the leaf instead of longitudinally. The flower spike is very showy; and when dried will last for years. Plant entirely hardy.

Price.—15c. each.

Erianthus Ravennae.—Resembles the Pampas Grass, but blooms more abundantly.

Price.—15c. each.

Holt's Mammoth Sage.

Holt's Mammoth Sage.—This is the only variety of sage worth growing, having larger leaves and not so liable to go to seed as the old varieties.

Price.—10c. each; 50c. per dozen.

MAIL ORDERS ONLY AT PRICES QUOTED ON 4th COVER PAGE.

The "Perfection" Currant.

This new fruit was originated by crossing the Fay's Prolific with the White Grape currant, with a view to combining the large size and color of the Fay with the good quality and productiveness of the White Grape. Season of ripening same as Cherry and Fay. Color, bright red, a good grower. Size, very large, larger than Fay and Cherry. Clusters very long. Very productive, resembling the White Grape in this respect. Quality, very fine. Not so acid as Fay and other red sorts. As a table currant, cannot be surpassed. A very important fact is that it has a long stem from fruit to attachment to branch, making it easy to pick.

Prices.—25c. each; \$2.50 per dozen.

Other Varieties.

Prices.—1 year, 75c. per dozen; \$3.00 per 100; 2 year, \$1.00 per dozen; \$4.00 per 100

Black Champion.—This variety comes from England, and has been pronounced by a committee of the Royal Horticultural Society one of the finest black Currants ever exhibited. The bunches are very large, and the flavor of the fruit particularly delicious. It hangs long on the bushes, and unlike the other varieties it will bear the severest pruning without detriment.

Fays Prolific.—Color, rich red. As compared with the Cherry Currant, Fays Prolific is equal in size, better flavor, with much less acid; also, from its peculiar stem, less expensive to pick.

North Star.—This currant is of remarkably vigorous growth and wonderfully prolific; the stems of fruit thickly set, average four inches in length. The fruit is very sweet and rich, a fine dessert fruit and unequalled for jelly. It is extremely hardy.

White Grape.—Very large, yellowish white, sweet or very mild acid, excellent quality and valuable for the table; the finest of the white sorts. Very productive.

Cherry or La Versailles.—Very large, red; bunch long; of great beauty and excellent quality. One of the finest and best.

New Perfection.

MAIL ORDERS ONLY AT PRICES QUOTED ON 4th COVER PAGE.

Price.—2 year olds, 15c. each; \$1.50 per dozen; \$9.00 per 100.

Downing.—Very popular; large pale green, good quality; bush vigorous, hardy, prolific. The fruit hangs in thick and close rows. If we could plant but one Gooseberry, we would plant the Downing. It bears abundantly, is hardy, requires but little attention; continues for almost a lifetime.

Houghton.—A medium size American variety, fruit smooth, red, tender and very good; bears abundant and regular crops. Free from mildew.

Pearl.—Best American variety; a cross between Houghton and a large English variety; very hardy, free from mildew, superior in size and quality and more productive than Downing; is likely to supersede this standard sort.

Red Jacket.—A true native and one of the finest of American gooseberries; rivaling the largest English varieties in high quality and size of berry; and excelling them by far in vigor of growth and freedom from mildew. The plant is of vigorous growth, with bright, clean foliage. It is very hardy and a wonderful cropper. The fruit is large, smooth, of a rich, ruby red, and fine in quality.

Columbus Gooseberry.—Fruit very large, green, inclined to straw color, of excellent flavor, carries well to market. Bloom is well protected by early foliage, making it one of the surest croppers. On account of its productiveness, we believe that every one of our patrons should have one or more bushes.

Red Jacket.

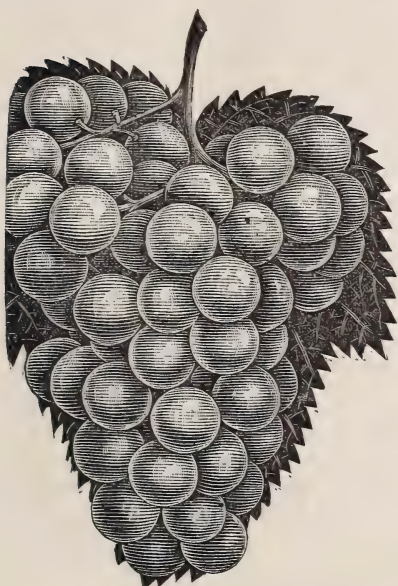

Strawberry=Raspberry.

Prices.—5c. each; 40c. per dozen.

MAIL ORDERS ONLY AT PRICES QUOTED ON 4th COVER PAGE.

Grapes.

Prices.—Lutie, McPike, McKinley, Campbell's Early, Eaton, Green Mountain and Ulster Prolific, 25c. each; \$2.50 per dozen; one each of the seven varieties for \$1.50.

Campbells Early.

Lutie.—The Lutie Grape is the best family grape in the world; earliest in the market; vines hardy; a strong grower; bunches solid, berries large; color light chocolate; flavor equal to Delaware, sweet and rich.

Eaton.—Large and showy in both bunch and berry, black with blue bloom, thick skin, flesh juicy and tender. Mid-season. As large as plums.

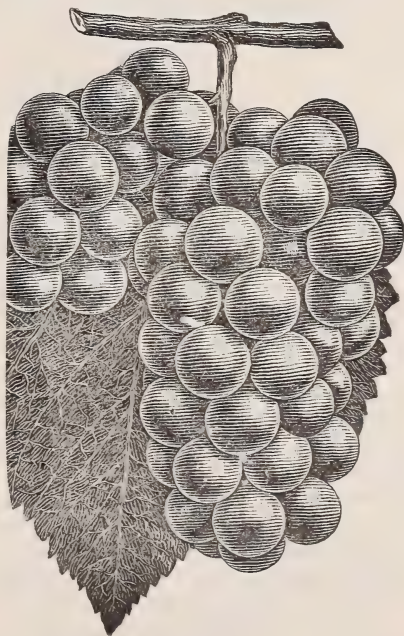

Green Mountain.—Clusters and berry medium, greenish white, thin skin, fine quality, tender, sweet; strong grower, exceedingly hardy.

Vergennes.—Bunch medium size, berry large, medium, roundish, skin thick, red overspread with thick bloom, flesh quite pulpy, flavor pleasant, vine vigorous, hardy and productive, fruit ripens with Concord and keeps well.

McPike.—A seedling of the Worden fully as vigorous, hardy and productive, ripening at same time. Bunch large, compact, black with blue bloom; extra fine quality, ranks as the very best grape in size and quality.

McKinley.—A new early white grape. Bunches large, compact and handsome, berries large, nearly round, green at first, turning to yellow when fully ripe. Very sweet, extra quality, a good shipper, remarkable keeper.

Campbells Early.—Its strong, hardy, vigorous growth, thick, heavy foliage, very early ripening and abundant bearing of large and handsome clusters, combined with the most remarkable keeping and shipping qualities, form a combination equalled by no other grape. Ripens with Moores Early, berry of large size and glossy black color.

Lutie.

MAIL ORDERS ONLY AT PRICES QUOTED ON 4th COVER PAGE.

General List.

Prices.—1 year, 10c. each. \$1.00 per dozen. 2 years, 15c. each. \$1.50 per dozen.

Agawam.—Red or amber color; bunch usually loose, shouldered, berries large, juicy, of a rich, peculiar, aromatic flavor.

Bacchus.—An improvement upon the old and popular Clinton. Bunches small, sprightly; valuable for wine.

Brighton.—Berries medium to large, round, light red to dark crimson in color; flesh tender, sweet, slightly aromatic; productive. Early.

Catawba.—Dark red when fully ripe. Bunches large; berries medium to large, with rich, vigorous flavor, of best quality.

Con ord.—A large, purplish black grape, ripening about the middle of September; vines remarkably vigorous.

Delaware.—Small, light red, skin thin, very juicy, sweet and sprightly; one of the finest flavored hardy grapes.

Moore's Early.—The best very early grape, fully tested. Bunches large, berry round and large, black with a heavy blue bloom; of good quality.

Moore's Diamond.—White; bunch large, compact, shouldered; berries large,

round, skin thick, firm; flesh tender juicy, with but little pulp.

Niagara.—Bunch is very large and compact, sometimes shouldered; berries large; light greenish white; semi-transparent; skin thin, quality good.

Pocklington.—The fruit is a light golden yellow, juicy and sweet; bunches very large, sometimes shouldered; berries very large.

Wyoming Red.—An early light red grape with hardy vine and foliage. It ripens with Delaware; large bunch and berry, sweet and good.

Empire State.—Bunches large shouldered; medium to large roundish oval, color white; flesh tender, juicy, rich and sweet.

Salém.—Dark red; bunch large, compact, shouldered; berries large, round; flesh very sweet, tender, with a rich, aromatic flavor.

Worden.—Black; bunch large, sometimes shouldered, compact; berries very large, skin thin.

Fruit Trees.

CAUTION—Protect Yourself from San Jose Scale.

Before purchasing nursery stock, no matter from whom nor whence it comes nor how many entomologists' certificates accompany it, demand a positive assurance that it has been fumigated properly with Hydro-Cyanic Acid Gas.

We have the largest private Fumigating House in the country. In it, every tree or plant that we send out or receive, that is susceptible to the San Jose Scale, is fumigated. We have spared no expense in making our fumigating house as nearly air tight as possible, nor do we spare expense in the matter of full charges nor for the full length of time. We built the house on the recommendation of Prof. John B. Smith, Entomologist of New Jersey. He stated that some nurseries were sending out scale unknown to themselves and that our safeguard was to fumigate everything that we bought.

Prof. Smith, our entomologist, than whom there are none better, says that the certificates all have to be qualified with the statement "apparently free from Scale, etc.," and that as an entomologist cannot examine every tree separately, the surest and only safe way to buy trees is to have them fumigated with Hydro-Cyanic Acid Gas.

We advise the same.

It costs you nothing extra, and it is a sure death to all insect life. It not only kills all San Jose Scale, but destroys Woolley and Black Aphis as well.

MAIL ORDERS ONLY AT PRICES QUOTED ON 4th COVER PAGE.

Apples.

Prices of General List of Apple Trees.

| | Each. | Per Dozen. | Per 100 |
|------------------------------------|-------|------------|---------|
| Extra, 5 to 7 feet | 25 | 2 50 | 15 00 |
| First-class, 5 to 6 feet | 20 | 2 00 | 12 00 |
| Medium, 4 to 5 feet | 15 | 1 50 | |
| 1 year, 3 feet | 12 | 1 25 | 5 00 |

Summer Varieties.

Early Harvest.—Medium size, pale yellow; early, mild, excellent, sub-acid.

Early Strawberry.—Medium size, mostly covered with deep red; tender, almost melting, with a mild pleasant flavor. Tree a moderate, erect grower, and a good bearer.

Fanny.—Medium size, brilliant red. Flesh snowy white, tender crisp, juicy, mild sub-acid; early bearer.

Gravenstein.—Large, bright yellow, roundish, splashed with red and orange.

Golden Sweet.—Large, yellow, a very fair fine sweet apple, productive early to midsummer.

Red Astrachan.—Large, nearly covered with crimson, acid, very early.

Summer Pearmain.—Medium, oblong, red, flesh yellow, rich juicy, tender and pleasant.

Sweet Bough.—Large, pale yellow, sweet.

Summer Rambo.—Large, striped with red on the sunny side, sub-acid. Good.

Yellow Transparent.—Medium, yellow, smooth, waxen surface.

Williams Early.—Medium to large; oblong, red, a handsome dessert apple.

Autumn Varieties.

Bismarck.—Tree of short, stocky growth; thick, healthy foliage; fruit large, handsome, yellow, shaded red.

Chenango Strawberry.—Large, oblong; red and yellow; very handsome; highly valued as a table or market fruit on account of its handsome appearance and fair quality.

Duchess of Oldenburg.—A large, beautiful Russian apple; roundish; streaked red and yellow; tender, juicy, and pleasant. A kitchen apple of best quality, and esteemed by many for dessert. Tree a vigorous fine grower, and a young and abundant bearer. Very hardy, and very profitable.

Fall Pippin.—Very large, yellow, tender and best quality.

Fameuse.—(Snow apple.)—Medium crimson, flesh snow white, excellent quality.

Maiden's Blush.—Medium to large, roundish, clear yellow with pink cheek.

Twenty Ounce.—Very large, striped and splashed with red, good.

Wealthy.—Fruit medium, roundish; skin smooth, oily, mostly covered with dark red; flesh white, fine, juicy; vinous, sub-acid, very good. Tree very hardy, a free grower and productive. A variety of much value, on account of its great hardiness and good quality.

Pound Sweet.—Large, greenish yellow, juicy, sweet and tender.

MAIL ORDERS ONLY AT PRICES QUOTED ON 4th COVER PAGE.

Winter Varieties.

American Golden Russet. (*Sheep Nose*).—Medium, yellowish russet, a remarkably high flavored, juicy variety.

Baldwin.—Large, roundish, dark red, fine flavor, sub-acid, crisp and juicy.

Ben Davis.—Large, bright red, flesh white. Our best and most profitable winter market apple.

Fallowater.—Very large, greenish yellow, flesh fine grained, mild, sub acid.

Grimes Golden.—Medium size, yellow, highest quality, rich, tender.

Gano.—Large, bright red, fine grained, tender, sub-acid, excellent bearer.

Golden Russet.—Medium size, dull russet with a tinge of red, flesh greenish yellow, crisp, juicy and high flavored. A good keeper.

Hubbardston Non-Such.—Large, roundish, yellow, striped and splashed with red, very rich.

Jonathan.—Medium, deep red, tender, juicy and rich, one of the best apples for family and market.

King of Tompkins Co.—Very large and fine, red striped, sub-acid.

Langford Seedling.—Large, yellow, red striped, good keeper, excellent quality.

Missouri Pippin.—Medium, striped and splashed with red, crisp and juicy.

Mammoth Black Twig, (*Paragon*).—Fruit large, roundish, somewhat flattened; color dark red, slightly streaked; flesh firm, yellow, crisp, aromatic, sub-acid and juicy. It is a very late keeper, rich and of excellent quality.

Mann.—Medium to large, deep yellow, juicy, mild, pleasant, sub-acid.

Northern Spy.—Large, striped with dark crimson.

Nero.—Medium, red, good and regular bearer, good keeper.

North Western Greening.—Medium, yellow, rich, extra good keeper.

Paradise Sweet.—Large, yellow, excellent.

Rome Beauty.—Large, yellow, shaded with bright red, a very profitable and satisfactory variety.

Rhode Island Greening.—Large, greenish yellow, tender, juicy.

Seek-no-Further.—Medium, striped with red, slightly russeted, tender, rich and excellent.

Smith Cider, (*Salisbury*).—Large, skin yellow, changing to red, flesh tender, juicy, crisp, fair flavor.

Spitzenberg, (*Esopus*).—Large, red with gray specks, flesh firm, rich and spicy.

Stark.—Large, striped with red, flesh yellowish and moderately juicy.

Sutton Beauty.—Medium, shaded, mottled and obscurely striped with crimson, flesh crisp, tender, juicy.

Smokehouse.—Large, shaded with bright red, firm, juicy and crisp.

Staymans Winesap.—A seedling from the well-known Winesap, but is superior to its parent in size, color, flavor and keeping qualities.

Talman Sweet.—Yellow, firm, rich and very sweet.

Winter Banana.—It is a golden yellow, with slight blush or tint of red on sunny side. It is of excellent flavor, a delicious eating, and a splendid cooking apple.

Winter Rambo.—Medium streaked yellow and red, tender, juicy.

Wine Sap.—Medium, deep red, firm, crisp, fine quality, good keeper.

Wolf River.—Large, striped and splashed with red, juicy, pleasant, spicy flavor.

Yellow Bellflower.—Large, yellow, rich, crisp, juicy, sprightly acid flavor.

York Imperial, (*Johnson's Fine Winter*).—Medium to large, yellow, shaded red, firm, juicy, sub-acid. An excellent shipping apple. In 1 year olds only.

MAIL ORDERS ONLY AT PRICES QUOTED ON 4th COVER PAGE.

Crab Apples.

Prices on Crab Apples same as standard sorts.

Martha.—The ground is a bright yellow, nearly overspread with bright red.

Transcendant.—Large, roundish, rich crimson, white bloom, flesh crisp.

Hyslop.—Large, produced in clusters, roundish, dark, rich red.

Orange.—Medium, yellow, crisp, juicy, pleasant, good yielder.

Whitney's No. 20.—Large, almost red, striped; flesh yellowish white, very juicy, sub-acid, excellent. Tree vigorous.

Pears.

Keiffer.—Fruit large to very large, skin yellow, with a bright vermilion check; flesh brittle, very juicy, quality good. Tree very vigorous and very prolific. As a Fall Pear there is no variety as yet disseminated which has given such profitable returns.

Plant Duchesse Dwarf for profit.

Summer Pears.

The Koonce.—Season early; the fruit is medium to large, very handsome; surface yellow, one side covered with a bright carmine, containing brown dots.

***Bartlett.**—Large, yellow, flesh white, exceedingly fine grained and buttery.

Le Conte.—Of remarkable vigor and beauty of growth. The fruit is bell-shaped, of a rich creamy yellow, very smooth and fine looking, and ships well.

Wilder.—Fruit medium, bell-shaped, pale yellow with deep shading of brownish carmine, with numerous small dots, flesh pale yellow, fine-grained, tender, sub-acid, sprightly, much like Bartlett.

Manning's Elizabeth.—Small, yellow, with bright red cheek, very showy, sweet and sprightly.

***Clapps Favorite.**—Very large, yellowish green to full yellow, marbled with dull red, vinous, melting and rich.

Bartlett-Seckle Pear.—It is a cross between a Bartlett and a Seckel. In size it is a little smaller than Bartlett and ripens a little later than Bartlett. The color is pale green, with seldom any color on the sunny side. The flesh is fine grained, white, very melting and juicy, and in quality unmistakably the best.

MAIL ORDERS ONLY AT PRICES QUOTED ON 4th COVER PAGE.

Autumn Pears.

***Beurre d'Anjou.**—Large, greenish, sprinkled with russet, flesh melting, with a high, rich, vinous, excellent flavor, productive, succeeds as well as dwarf.

Flemish Beauty.—Large, pale yellow, much russeted, rich, melting, vigorous.

Howell.—Large, light waxen yellow, handsome, rich, sweet, melting, aromatic flavor.

***Duchess de Angouleme.**—Very large, dull greenish yellow, streaked and spotted with russet, flesh white, buttery and very juicy, with a rich and very excellent flavor; on young standard trees the fruit is variable, but as a dwarf it is always fine. The large size and fine appearance of this fruit makes it a general favorite.

Seckel.—Small, rich, yellowish; one of the best and most highly flavored pears known. Best of all pears.

Sheldon.—Large, russet, juicy and excellent, one of the best varieties, a fine grower and productive.

Garbers Hybrid.—Tree an upright grower, with heavy, dark green glittering foliage, which is nearly or quite free from blight. Fruit as yellow as an orange, larger than Keiffer, better in quality and four weeks earlier.

Vermont Beauty.—Tree hardy and vigorous, early and abundant bearer. Fruit medium, yellow with red cheek; rich juicy, best quality.

Worden-Seckel.—A seedling of the Seckel. Equal in quality to its famous parent which it resembles much in flavor, while in size, color, form and appearance it is decidedly superior. In color, when well ripened, it closely resembles Clapps Favorite. Tree a more upright and rapid grower than Seckel; a hardy and an enormous bearer; fruit keeps well, retaining its quality to the last.

Winter Pears.

Lawrence.—Medium, yellow, covered with brown dots, flesh white with a very rich aromatic flavor.

Danas Hovey.—Medium to small, rich cinnamon russet, melting, juicy, with honeyed sweetness.

Peaches.

Maule Early Peach.

This Peach has been thoroughly tested under orchard conditions for several years past and fully proven its worth before being introduced.

It is earlier than Sneed and in a class by itself as it cannot be compared with any of the other early peaches. It is a peach in every sense of the word and just as much so as the later peaches which it resembles and it seems remarkable how well it appears and how good the quality when you consider how early it is.

As an early market peach it is far better than any yet introduced as it bears well and keeps well, and best of all, it sells well and pleases the consumer as it is as good to eat as the best and comes when no other peach is in the market that compares with it.

The tree is vigorous and a tremendous cropper. The peach is a clear white over-spread with a bright red, flesh is firm, juicy and excellent; it is not a perfect free-stone but a half cling.

It is a good shipper and hangs on the tree until fully ripened without rotting. It carries well and shipments have been made and held for six days in the city under ordinary conditions without any damage to the fruit.

Price.—June buds only, 15c. each; \$1.50 per dozen; \$10.00 per 100.

MAIL ORDERS ONLY AT PRICES QUOTED ON 4th COVER PAGE.

Mayflower.

Earlier than Sneed, claimed to be a full week earlier. In color at it is red all over. It is an extra strong thrifty grower, a heavy cropper, often needing thinning. Claimed to be the best early market peach ever introduced as well as being the earliest peach, having good color. Comes from a good reliable concern with their endorsement after four years test.

Prices.—15c. each; \$1.50 per dozen; \$10.00 per 100.

General List of Peaches.

| Iron Mountain and Elberta, if ordered alone, at \$1.00 per 100 advance on these prices. | | | |

We arrange our list of peach trees as nearly in order of ripening as possible, and we think it very nearly correct. Every district has its peculiar climate and soil; under these peculiarities all varieties of peaches vary more or less, becoming in some cases hardly recognizable.

Varieties marked (Y) are Yellow Fleshed, those marked (W) are White Fleshed and white all through, while those marked (R) have red mixed with the white. These are sometimes called White Peaches. Mt. Rose, Stump and Mixon are a sample of the kind of peach. *Varieties not otherwise described are Freestone.*

Japan Dwarf Blood.—This is the earliest of peaches, ripening ahead of Alexander. It is a dwarf growing and very stocky variety, bearing when three or four feet high, Color is a beautiful crimson and yellow, heavily overlaid with red on sunny side, really having the appearance of blood red. The flesh is rich, juicy and most excellent quality, and much the same color as outside.

Admiral Dewey. (Y.) — Ripens with the Triumph, flesh is yellow, of uniform color and texture to the pit."

Triumph. (Y.)—Large with small pit, skin yellow, nearly covered with red, flesh bright yellow, not thoroughly free.

Alexander. (R.)—Medium, skin greenish white, nearly covered with red. Half-cling.

Amsden. (R.)—Medium, skin greenish white, nearly covered with purple. Half-cling.

Waddell. (R.)—It is of medium to large size, oblong in shape, creamy white, with bright blush, flesh firm, white and very sweet and rich when ripe. Half cling.

Carman. (R.)—Large, resembles Elberta in shape; color, creamy white or pale yellow, with deep blush; skin very tough, flesh tender, fine flavor and quite juicy.

Miss Lolo. (R.) — Large size, white satin skin with bright red cheek, flesh white, quality best of the very early varieties.

Southern Early.—This peach is creamy white, with bright red blush on exposed side; large size, freestone, and of excellent flavor, ripening about a week before Mt. Rose.

Early Rivers. (W.) — Large, color creamy white, with a delicate pink cheek. Half-cling.

Troths. (R.)—Small, red, flesh white, rich and excellent.

MAIL ORDERS ONLY AT PRICES QUOTED ON 4th COVER PAGE.

McIntosh. (R.)—Of large size, creamy white flesh, highly colored, freestone, ripens to the stone, of good quality.

Greensboro. (W.) — Medium. oval creamy white, with rich red blush, almost freestone.

Success. (R.)—It is earlier than Mt-Rose by ten days. Size large, skin white, nearly covered with deep red, making it very attractive; flesh firm, creamy white, red at the stone.

Sneed. (R.)—Medium size, somewhat oval in shape; color creamy white, with rich red blush on sunny side; ripens even to the pit.

Husted's Early Michigan. (R.)—Large, roundish, beautiful red cheek; flesh light cream color.

Champion. (R.) — Very large, rich cream white, with red cheek, flesh white, sweet, delicious.

Large Early York. (R.)—Large, white and red, juicy, rich and excellent, identical with Honest John.

Delaware. (R.)—A seedling of Mountain Rose, but much earlier. Of large size and fine appearance, with a delicately flushed skin, shaded with red. Flesh is white, and of a rich flavor and juicy; a perfect freestone and very productive.

Mountain Rose. (R.)—Very profitable for market, large, roundish, skin white, nearly covered with a rich red; flesh white, slightly stained at the stone, juicy, sweet.

Foster. (Y.)—Large, skin deep orange, red, flesh yellow, very rich and juicy.

Reeds Early Golden. (Y.)—An improvement upon Crawfords Early, with which it ripens, but is much larger and handsomer.

Crawford Early. (Y.)—Large, oblong, skin yellow with fine red cheek; flesh yellow, juicy, sweet and excellent.

Niagara. (Y.) — Large, yellow, with red cheek, juicy and high flavored, flesh yellow; freestone. Season medium early, following quick upon Early Crawford.

Orange Free. (Y.)—The finest of all peaches for family garden. Medium, round, flesh yellow, with a yellow skin, mottled all over with a beautiful shade of red.

Belle of Georgia. — Very large, skin white, with red cheek; flesh white, firm and of excellent flavor; fruit uniformly large and showy; free.

Lemon Cling. (Y.) — Clingstone. Is one of the largest and most beautiful of all the yellow-fleshed clings; very productive and hardy.

Old Mixon. (R.)—Is a fine, large, productive variety, succeeding well in all localities, and well deserving of the high favor in which it is held as an orchard variety; skin yellowish white, with a deep red cheek; flesh white, but red at the stone; tender, rich excellent.

Wheatland. (Y.)—Extra large, beautiful golden yellow with a crimson cheek; of best quality.

Moore's Favorite. (R.)—Similar to Old Mixon Free, said to be a trifle larger.

Reeves Favorite. (Y.)—Large, skin yellow, with fine red cheek; flesh yellow, red at stone, juicy, melting.

Stump. (R.)—Large, white with bright red cheek, juicy, and of high quality; very productive and profitable. A most popular peach, it should be in all collections.

Jacques Rareri. (Y.)—Large, round, dark yellow, shaded with red; flesh yellow, juicy.

Crosby. (Y.)—Medium, roundish in form, slightly flattened, bright orange yellow.

Fitzgerald.—The fruit is of very large size, exceeding Crawfords Early, which it also excels in every way. Pit is small, exceptionally hardy.

Captain Ede. (Y.)—New variety from Illinois, of growing popularity. Size large, yellow. Tree vigorous grower and productive.

Globe. (Y.)—Very large, yellow, firm and excellent.

Elberta.—Very large, skin golden yellow, where exposed to the sun, faintly striped with red; flesh yellow, very fine grain, juicy, rich, sweet and splendidly flavored; tree very prolific and presents a handsome appearance and a more luxuriant growth than the Chinese Cling, of which it is a seedling. It is a perfect freestone and one of the most successful market varieties.

Emma.—Very large, yellow with light crimson cheek; flesh yellow, fine grained, very juicy, quality among the best, a freestone.

Ameliaberta. (Y.)—A cross between Amelia and Elberta, as large as Elberta, high color.

Mixon Cling. (R.)—Fruit large, roundish, oval; skin yellowish white; flesh pale white, very melting, juicy, exceedingly rich, luscious.

Connecticut. (Y.)—Fruit large, round, deep yellow with red cheek; rich, sweet and high-flavored.

Crawford Late. (Y.)—Large, yellow, with a red cheek; flesh deep yellow, juicy and melting.

Willets. (Y.)—Large yellow peach of the Crawford Late type and one which after many years testing in New York has proven to be one of their most valuable peaches.

Matthews Beauty. (Y.)—Large, late, yellow. A new peach of much merit.

Susquehanna. (Y.)—Yellow flesh, with beautiful red cheek, sweet and juicy.

Wards Late. (R.)—Large, white with red cheek; rich, sprightly and luscious.

Beers Late. (Y.)—A seedling of Crawford Late, with which it ripens and differs only in being more regular and abundant bearer.

Connecticut. (Y.)—Fruit large, round, deep yellow with red cheek; rich, sweet and high flavored.

Chairs Choice. (Y.)—Very beautiful, large size, deep yellow with red cheek, flesh firm and of best quality.

Foxes Seedling. (R.)—A very valuable peach, ripening at a time that makes it desirable, large, fine quality, white flesh, beautiful red cheek.

Stephens Rareripe. (R.)—Large, white shaded and mottled red, flesh white, juicy, vinous and of high quality. Hardy, a heavy and regular bearer.

Late Rose. (R.)—Large, nearly identical in shape and color to the well known Mountain Rose. It ripens about the same time as Beers Smock.

Beers Smock. (Y.)—Fruit medium to large, skin light orange yellow mottled with red. Excellent as a late market sort.

Ellison. (Y.)—A beautiful yellow flesh Peach, large as the Late Crawford, ripening later, yellow, with a rich blush.

Fords Late. (W.)—Large, skin beautiful white, flesh white, very sweet, solid and fine in texture, trees very vigorous and unusually productive.

Lemon Free. (Y.)—Color, a pale lemon, when ripe.

Gearys Hold-On. (Y.)—Large, late, yellow, freestone, almost identical with Smock.

Lovetts White. (W.)—Season very late, color pure white.

Wonderful. (Y.)—Color, rich golden yellow, largely overspread with carmine; one of the latest freestone varieties.

Bray's Rareripe. (R.)—Large size; oblong or oval; white flesh; freestone; fine grained, with beautiful red cheek.

Indian Blood. (R.)—Large, deep claret, with deep red veins, downy; flesh deep red; very juicy, vinous and refreshing; cling.

Bilyeu's Late. (R.)—Large; white with bright red cheek; a good shipper; one of the very best late Peaches.

Klondike. (W.)—Large size, white skin with brilliant red cheek, white flesh, sweet, juicy, delicious flavor, free from bitterness, perfectly free, bright red at stone and free from fibre.

Summer Snow. (W.)—One of the best peaches for canning—far more delicious than Heath Cling, and ripens a month earlier. Of special value along the Northern borders of the peach belt. A snowy white cling, clear white to the pit.

Salway. (Y.)—Large, yellow mottled with a red cheek; a valuable late variety.

Late Heath Cling. (W.)—Large, white with faint blush. Cling.

Iron Mountain. (W.)—Size enormous, oblong or egg shape, color pure white, sometimes having a slight blush. It is a perfect freestone and has as good quality as any white peach we have ever grown. Season September 20th to October 10th, according to season and soil.

Iord Palmerston. (Y.)—Cling, large, beautiful creamy white with a blush cheek, rich flavor and firm.

Japan Plums.

| | Each. | Per Doz. | Per 100 |
|--------------------------|--------|----------|---------|
| Prices.—Extra, | \$0 30 | \$2 50 | \$17 00 |
| First-Class | 25 | 2 00 | 15 00 |
| Medium | 15 | 1 50 | |

America.—In growth and general appearance the tree is like the native plum, with drooping slender branches, a good grower and very prolific. Fruit is larger than the average Japan. It is not surpassed in beauty by any plum; color glossy coral red, flesh light yellow, moderately firm, of excellent quality, ripens two or three weeks before Burbank, is a splendid keeper. Should prove hardy all over the United States and succeed wherever plums can be grown.

Abundance. (Botan.)—Beautiful lemon yellow nearly overspread with bright cherry, oblong; flesh orange yellow, melting, rich and highly perfumed. Abundant and annual bearer.

Burbank.—The fruit is large, nearly globular, cherry red; flesh a deep yellow, with a peculiar and agreeable flavor.

Chabot.—Yellow, nearly covered with carmine red; flesh orange yellow, very solid, sub-acid; quality very good.

Climax.—Fruit heart-shaped, as large as Wickson and more highly colored, so fragrant that the whole house is perfumed with a single fruit; delicious as could be desired or imagined, and above all, it ripens here July 12th, before any other good plum, and nearly a month before Wickson.

October Purple.—The fruit is round in form, color a reddish purple, a little darker than the Bradshaw; flesh yellow, stone small, and in quality superb.

Satsuma Blood.—Large, skin dark purplish red, mottled with bluish bloom, shape globular, or with sharp point; flesh firm, juicy; dark red or blood color, well flavored and firm; quality very good; pit small.

Wickson.—Fruit remarkably handsome, deep maroon red, stone small; flesh fine texture, firm, sugary and delicious.

Shiro.—The fruit is medium to large, very uniform in size, clear light yellow, so transparent that the pit can be seen through the flesh, which is firm yet juicy, rich, pleasant, sub-acid, clingstone; ripens two weeks before the Burbank.

The Hale Plum.—A handsome round plum, orange, thinly covered with mottled red, so as to have a yellowish appearance, flesh yellow, soft and juicy.

Red June. (Red Nagate.)—Of immense value for its very early ripening. The fruit is medium to large, roundish conical, deep purplish red, very handsome and attractive, flesh pale yellow, firm and meaty.

|European Plums.

Prices.—First-class, 25c. each; \$2.50 per dozen; \$15.00 per 100.

German Prune.—Fruit oval in shape, nearly two inches long, of good quality for the table, and much esteemed for drying and preserving; hangs long on the tree, and is firm, sweet and pleasant.

Imperial Gage.—Rather large, oval greenish; fleshy juicy, rich and delicious, and on account of the tree being a good grower, is preferred by many to the Green Gage, ripens early.

Lombard.—Medium, round, oval; violet red, juicy, pleasant and good; adheres to the stone; productive. A valuable market variety; one of the most hardy.

Grand Duke.—A very handsome plum especially valuable for market. It resembles Bradshaw in size and color, being very large and of fine dark violet red

Green Gage.—Small; considered the standard of excellence. Mid-season.

Niagara.—Very large; reddish purple, entirely covered with gray bloom; flesh deep greenish yellow.

Reine Claude.—A large, fine variety; skin greenish yellow covered with a thick bloom; flesh yellow, juicy, melting, with a rich, sugary, excellent flavor.

Shippers Pride.—Large, round, purple; very firm, excellent quality. A strong upright grower and regular bearer. Very productive.

Spaulding.—The fruit is large, yellowish green with a delicate white bloom; flesh pale yellow; exceedingly firm, of sugary sweetness.

MAIL ORDERS ONLY AT PRICES QUOTED ON 4th COVER PAGE.

Cherries.

Duke and Morello Cherries.

| | Each. | Per Doz. |
|-------------------------------|-------|----------|
| Prices.—Extra large | 0 40 | \$4 50 |
| First-class | 0 30 | 3 00 |

Dyehouse.—Resembles both the Duke and Morello in wood and fruit; early and sure bearer; ripens before Early Richmond; better and more productive.

Early Richmond.—Medium size, dark red, melting, juicy, sprightly, acid flavor. This is one of the most valuable and popular of the acid cherries, and is unsurpassed for cooking purposes, and is exceedingly productive.

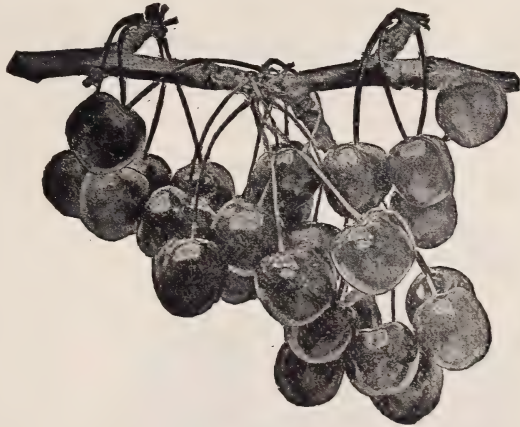

English Morello.—Medium to large, blackish red, rich, acid, juicy and good. Very productive; very late.

Large Montmorency.—A large, rich, acid cherry, larger than Early Richmond and fully ten days later.

May Duke.—Large, dark red, juicy and rich; an old, excellent variety. Productive; early.

The New Cherry, "Mercer."

Description.—A seedling of Mazzard. The tree is the acme of healthy growth, the original tree being over 50 years old without any signs of decay or loss of vigor, maintaining its dark green leaves long after all other cherries have shed their foliage. The fruit buds are harder than any other variety of heart cherries, thus ensuring annual crops. Fruit very large, often measuring three-quarters of an inch in diameter; color, dark glossy red, almost black when fully ripe, having the appearance of being varnished; quality unexcelled for table use or canning; ripens early, but will hang on the tree during any and all kinds of weather without showing any signs of rot long after it is ripe. Its freedom from rot and worms, wonderful keeping and shipping qualities, large size and beautiful glossy appearance procures for it the highest prices; this, with the wonderful productiveness of the tree, ensures the planter for his investment a rich reward.

Mercer Cherry.

Cherries.

Hearts and Bigarreaus.

| | Each. | Per Doz. |
|------------------------------|--------|----------|
| Price.—Extra large | \$0 40 | \$4 50 |
| First-class | 0 30 | 3 00 |

Centennial.—It is a seedling of Napoleon Bigarreau, which it resembles in appearance, but is much larger and obovate in form. In addition to its remarkable keeping properties the fruit is of immense size; beautiful amber, shaded red, with very firm yet tender flesh, sweet, rich, luscious.

Black Tartarian.—An old and popular variety; large, purplish black, juicy, rich, excellent.

Coes Transparent.—Medium size; pale amber, mottled next to sun; tender, sweet and fine; early; one of the best.

Gov. Wood.—Large; roundish, depressed at stem; skin light yellow, shaded and marbled with bright red, flesh tender, juicy, sweet and delicious; early.

Yellow Spanish.—Large flesh very firm, juicy and delicious; pale yellow with a bright red cheek in the sun; eminently popular and deservedly so. Tree vigorous and productive.

Napoleon.—Very large, pale yellow or red; firm, juicy and sweet. A vigorous grower and very productive; one of the best.

Rockport.—Large, pale amber with clear red, very handsome and excellent Good bearer; early.

Windsor.—The tree is a vigorous, hardy and an early and good bearer. The cherries are obtuse, heart-shaped, dark purple or nearly black; the flesh quite firm, fine in texture and rich in flavor; ripens early.

Downing Everbearing.

Mulberries.

Prices.—4 to 6 feet, 25c. each.

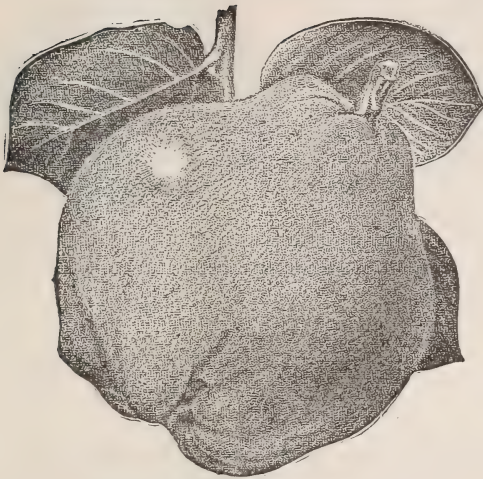

\$2.50 per dozen.

New American.—Equal to Downing in all respects and a much hardier tree. Vigorous grower; very productive; the best variety for fruit; ripe from middle of June to middle of September.

Downing Everbearing.—Highly ornamental for street or lawn, yielding an abundant supply of very large, black, handsome berries, sweet, rich and excellent.

MAIL ORDERS ONLY AT PRICES QUOTED ON 4th COVER PAGE.

Quinces.

Meeches Prolific.

Champion.—Fruit very large, fair and handsome. Tree very productive, surpassing any other in this respect; bears abundantly while young; flesh cooks as tender as the apple, and without hard spots or cores; flavor delicate, imparting an excellent quince taste and odor to any fruit with which it is cooked.

Meeches Prolific.—A vigorous grower and immensely productive, frequently bearing fruit when but two years of age, increasing in quality yearly to such an extent as to require vigorous thinning to prevent injury to the tree from overbearing. The fruit is large, lively orange color, of great beauty and delightful fragrance; its cooking qualities are unsurpassed.

The Quince requires a deep, rich, moist soil, but if well manured and mulched, they will succeed admirably on dry ground. The tree is hardy and compact in growth, requiring but little space, productive and comes early into market. Prune off all dead or surplus branches and thin out the fruit if bearing too freely.

Prices.—2 to 3 feet, 15c. each; \$1.50 per doz.; \$10 per 100.

3 to 4 feet, 20c. each; \$2.00 per doz.

Orange.—Large, roundish; bright golden yellow; cooks tender, and is of very excellent flavor. Valuable for preserves or flavoring; very productive; the most popular and extensively cultivated of the old varieties.

Nut Trees.

Paragon Chestnut.—A magnificent chestnut; hardy and productive; nuts large and of excellent quality. Burrs of immense size, distinctly flattened on top; nuts large, 3 to 5 in a burr, and covered with hairy fuzz. Kernel fine-grained, sweet and of good quality. Tree a very vigorous upright grower.

Paragon.

Ridgely Chestnut.—Tree of immense size and very productive; burrs are of medium size and contain from two to three nuts each; nuts of medium size, with some fuzz at point; kernels sweet and of good quality. One of the most valuable. Tree very healthy.

Pedigree Japan Mammoth Chestnut.—The tree is decidedly ornamental, hardy and productive, of dwarf habit bearing extremely young. Nuts of enormous size and of better flavor than the Spanish Chestnut.

Trees commence to bear when but two or three years old, often producing a large crop as they stand in the nursery rows, and we have seen burrs containing from four to seven large perfect nuts. The size of the nut is about four times larger than the wild chestnut, and it is a tree which everyone should plant. The nuts are very fine and sell for a high price. The Japan Seedling is sure to produce nuts, and our long experience with the tree teaches us that seedlings are as sure to produce as grafted trees, and are longer lived.

Our Pedigree Japan Mammoth are grown from selected seed of the genuine Japan Giant, and also produce nuts of immense size, and should not be confounded with what are generally offered as Japan Chestnuts.

| | Each. | Per Dozen. |
|-------------------------------|--------|------------|
| Prices.—2 to 3 feet | \$0 12 | \$1 25 |
| 12 to 18 inches, | 10 | 1 00 |

American Sweet Chestnut.—The fruit is small, but very sweet, and shows a tendency to vary considerably in size and quality, showing that time and care only are needed to produce varieties which will equal in value the best Maroons of France. The American Chestnut possesses a great deal of value as an ornamental tree. It grows rapidly even in light porous drift, and soon makes a handsome round-headed specimen.

| Prices.—8 to 9 feet | \$0 30 |
| 6 to 7 feet | 25 |
| 5 to 6 feet | 15 |

Pecans.

Pecans, Louisiana Paper Shell.—The Pecan is a very rapid growing tree, with light green foliage, which it retains until late in the fall, rendering it a very conspicuous and attractive shade tree, producing in great abundance oblong, smooth, thin-shelled nuts with sweet and delicious kernels.

Grown from extra large nuts, averaging from 50 to 60 to the pound. These nuts are taken from four isolated trees in Louisiana. Our seedlings have been grown from the above trees exclusively. Their flowers being thus fertilized, will reproduce at the rate of from 50 to 89 per cent. Seedlings grown from nuts gathered from promiscuous trees in groves vary greatly in size and quality. The market price of large Paper Shell Nuts range from 50 cents to 75 cents per pound for nuts running 50 to 60 to the pound, whereas the small, hard-shell nuts can be secured for from 5 cents to 6 cents per pound.

| | Each. | Per Dozen. | Per 100. |

**Japan Walnut, Max Cordiformis.**

grow in clusters, and resemble Shellbark Hickory. As a dessert nut it has few superiors, the kernels are of a peculiar heart-shape which can be readily extracted whole. The meat is very sweet and is used very extensively in the form of candied nuts.

Japan Walnut Max Cordiformis.—This species is found growing wild in the mountains of Northern Japan, and is without doubt as hardy as the Oak. The tree is a rapid grower and bears at four years from the seed and is said to attain a great age. The trees grow with great vigor, assuming a very handsome form, mature early, bear young and are more regular and productive than the English Walnut. The leaves are of immense size and of a charming shade of green. The nuts, which are produced in extreme abundance,

| 4 to 5 feet, | 15 | 1 50 | 10 00 |
| 5 to 6 feet, | 20 | 2 00 | |

**Manchurica Walnut.**

Manchurica Walnut.—This is the hardiest of all soft-shelled Walnuts, and stands several degrees below zero without injury. It is a vigorous, free grower and transplants readily; very prolific, producing nuts in clusters, and comes to fruiting very young. It puts out leaves and blossoms late in spring, and is therefore especially desirable for sections subject to late frosts. The nut is larger than in the ordinary varieties; the kernel full, plump, meaty, sweeter, richer in oils and of finer flavor. The shell is thin, but not tender, like some "paper shell" varieties; does not crack in handling, still may be crushed in the fingers. Very desirable and valuable.

It is conceded to be an established fact by all the leading authorities on nut culture that trees propagated from nuts grown in the North are much harder than those propagated from nuts brought from the South.

We obtained our seed through Japanese importers who called our attention to this nut some years ago and have procured some for us from Arctic Manchuria and this assured us of its hardness in the coldest climates. The nut resembles the English Walnut in appearance and is of superior quality. It can be grown where no other thin shell variety can possibly withstand the cold.

| | Each. | Per Dozen. |
|----------------------------------------|--------|------------|
| Prices. —1 year only, | \$0 25 | \$2 50 |

English Walnut or Maderia Nut.—The large quantities of Nuts sold prove the estimation in which they are held for the table. This is called by some Persian and French Walnut.

MAIL ORDERS ONLY AT PRICES QUOTED ON 4th COVER PAGE.

Black Walnut.—A native tree of large size and majestic form, beautiful foliage. Tree is a rapid grower, producing a large round nut of excellent quality.

Prices.—20c. each; \$2.00 per dozen.

Shellbark Hickory or Tuscatine.—To our taste no other nut that grows, either foreign or native, is superior to this in quality. It possesses a peculiar, rich, nutty flavor, excelled by none. The tree is of sturdy lofty growth. The wood, on account of its great strength and elasticity, is highly prized for making agricultural implements.

Prices.—18 to 24 inches, 15c. each; \$1.50 per dozen; 2 to 3 feet, 20c. each; \$3.00 per dozen.

Shellbark or Tuscatine.

Asparagus.

For garden culture, plant in beds two feet apart each way, for field culture, make five feet apart and plant two feet apart in the rows. Set root six inches below the surface, covering but two inches deep at first, and filling in after the plant has pushed forth, by degrees, the first season as you continue to cultivate. The size and earliness are always proportionate to the amount of manure applied.

|----------------------------------|---------------|------------------|
| Prices. —2 year | 75c. per 100. | \$4.00 per 1,000 |
| 1 year | 50c. “ | 3 50 “ |

Early Argenteuil.—A French variety of mammoth size which has proved a money maker wherever tried. It is also a very early variety and a great yielder.

Donalds Elmira.—The stalks are very large, delicate green, tender and succulent.

Conovers Colossal.—Large, of rapid growth, productive and of fine quality.

Barrs Mammoth.—Its merits are size and great productiveness.

Palmetto.—It is an improvement on Conover's in that it yields a much heavier crop, fully as large and of much more even and regular size. It is fit for use nearly a week before Conovers. The best variety for all purposes.

Rhubarb or Pie Plant.

Linnaeus.—Large, early, tender and fine. Strong, vigorous grower, producing extra large stalks of finest quality.

Hop.

Golden Cluster Hop Vine.—A large productive sort, growing in clusters and easily gathered; the finest variety.

Price.—10c. each; 75c. per dozen.

MAIL ORDERS ONLY AT PRICES QUOTED ON 4th COVER PAGE.

Ornamental Trees.

Elm, Camperdown-Weeping.—This forms one of the most picturesque of drooping trees. It is of rank growth, the shoots often making a zigzag growth outward and downward of several feet in a single season. The leaves are large, dark green and glossy, and cover the tree with a luxuriant mass of verdure.

Price.—\$1.00 each.

Carolina Poplar.—A handsomely formed rapid growing tree, with angular branches; angles forming whitish lines, which persist even after the tree has attained its growth; trunk furrowed even in old age. One of the handsomest and hardiest of the genus.

Price.—10 to 12 feet, 35c. each.

12 to 15 feet, 50c. each.

Catalpa Bungei.—(Umbrella Tree), Japan. One of the most attractive of trees which, when better known, will certainly be in great demand for lawns and all ornamental grounds. It forms a perfect half-globular or umbrella head, with foliage of a deep green color, laid with great precision and making a beautiful roof of leaves upon which the light plays with delightful effect; a most striking and beautiful object upon the lawn.

Price.—Six feet, three year heads, \$1.00 each.

Catalpa Speciosa.—One of the most rapid growers. Valuable for timber, fence posts, railroad ties, etc., possessing wonderful durability. Large heart-shaped downy leaves and compound panicles of white flowers, tinged with violet and dotted with purple and yellow. Very ornamental and useful. Upright and symmetrical in growth; blossoms two or three weeks earlier than the common Catalpa.

Price.—6 feet, 35c.; 6 to 8 feet, 40c.

8 to 10 feet, 60c.

Horse Chestnut, White Flowering.—A very beautiful, well-known tree, with round dense head, dark green foliage and an abundance of showy white flowers in the early Spring.

Price.—5 to 7 feet, 50c. each.

Horse Chestnut, Red Flowering.—Exceedingly handsome and attractive tree. Flowers scarlet and very ornamental; leaves of a deeper green than those of any other variety. The most ornamental sort of the genus.

Price.—5 feet, 75c. each.

Elm, American. (*Ulmus Americana*).—A noble tree, of strong rapid growth; lofty sweeping branches of great elegance and grace. Suitable for street or lawn planting.

Price.—10 feet, 75c. each.

Norway Maple.—A large, handsome tree of spreading rounded form, with broad, deep-green, shining foliage. Its compact habit, and strong, vigorous growth render it one of the most desirable species for the street, park or garden.

Price.—6 feet, 35c. each; \$3.50 per doz.
10 feet, \$1.00 each.

Schwedlers Maple.—A beautiful variety with young shoots and leaves of a bright purplish and crimson color, which changes to a purplish green. One of the most valuable trees of recent introduction.

Price.—10 feet, \$1.00 each.

Silver Maple.—For producing a quick shade, and especially for street planting, there are few trees superior.

Price.—9 to 10 feet, 25c. each; \$2.50 per dozen.

10 to 12 feet, 50c. each; \$5.00 per dozen.

New Lilacs.

Price.—35c. each.

Villosa.—A new species from Japan. Large branching panicles; flowers light purple in bud, white when open; fragrant.

Le Gaulois.—Panicle very large and compact, flowers deep peach color.

Princess Alexandra.—Pure white flowers; panicles medium to large.

Prince of Wales.—Panicles medium to large; flowers purplish lilac.

Josikea.—A fine distinct species, with dark, shining leaves and purple flowers in June.

Iovaniensis.—Silvery pink, a distinct and beautiful shade; panicle large and very erect.

Ludwig Spaeth.—Panicle long; individual flowers large, single; dark purplish red.

Virginalis.—Flowers pure white.

Rubella Plena.—Flowers large, very double, clear violet red.

Rothomagenis Rubra.—A distant variety, with reddish flowers; panicles of great size.

President Grevy.—A beautiful blue; individual flowers double and very large.

MAIL ORDERS ONLY AT PRICES QUOTED ON 4th COVER PAGE.

Other Lilacs.

Price.—25c. each; \$2.50 per dozen.

Siberian White.—Flowers white with a bluish tint.

Common White.—Flowers pure white.

Persian White.—Slender growth; fine.

Persian Purple.—Foliage small; blooms in early Spring.

Hardy Shrubs.

Althea or Rose of Sharon.—Desirable on account of flowering in August and September.

Price.—15c. each; \$1.50 per dozen.

Japan Snowball.

Virburnum Plicatum (Japan Snowball.) —Has a very rich, deep green foliage, of handsome form and beautiful globular heads, of pure white flowers, quite distinct from those of the common sort.

Price.—2 to 3 feet, 30c. each; extra fine.

Spirea Van Houttii.—An upright growing shrub with graceful slender branches and bright green foliage, rather curiously lobed. The flowers of pure white are in great clusters and form cylindrical plumes two feet long.

Price.—3 to 4 feet, 25c.

Berberis, Purple-leaved (*Berberis Vulgaris Purpurea*). — A very handsome shrub growing from 3 to five feet high with violet purple leaves and heads.

Price.—15c. each; \$1.50 per dozen.

Berberis Thunbergii.—One of the most effective plants in autumn, after most other deciduous shrubs are bare. Its small oval leaves then assume superb crimson hues, and the slender branches droop beneath their load of bright red berries, which hang on until late in winter; new and desirable.

Price.—15c. each; \$1.50 per dozen.

Hydrangea Paniculata Grandiflora.—The *Hydrangea Grandiflora* continues to be one of the best and most beautiful hardy ornamental shrubs ever grown. It blooms finely the first year and gets better and grows larger with age; it grows three to four feet high, is perfectly hardy in all parts of the country; needs no protection in Winter. The flowers are pure white, afterwards changing to a pink and rich coppery red, and are borne in immense pyramidal trusses nearly a foot long and nearly as much in diameter; the plant is of bushy and compact growth, and when laden with its great masses of bloom is exceedingly striking and attractive.

Price.—Large plants, 15c. each; \$1.50 per dozen.

Extra large, 25c. each.

Weigela Rosea.—An elegant shrub, with fine rose-colored flowers. Introduced from China by Mr. Fortune and considered one of the finest plants he has discovered. Hardy; blossoms in May.

Price.—Extra strong bushes, at 25c.

Weigela Lavalle.—A choice variety bearing dark reddish purple flowers abundantly during June and the greater part of Summer. It is a very desirable and interesting shrub, and an appropriate and valuable companion for the *Weigela Rosea*.

Price.—25c. each.

Weigela Eva Rathke.—A charming new *Weigela*, flowers a brilliant crimson; a beautiful, distinct, clear shade.

Price.—25c. each.

MAIL ORDERS ONLY AT PRICES QUOTED ON 4th COVER PAGE.

Evergreen.

Biota Aurea Nana. (Berckman's Golden Arborvitae.)—The most popular of all Biotas. A new variety. Of very dwarf and compact habit; a perfect gem for small gardens or cemetery lots. It far surpasses the old Biota Aurea where a very dwarf tree is desired. This plant is very effective for window boxes and for tubs in exposed places, where it is too cold for palms and other decorative plants. Has stood a temperature of 10 degrees below zero in New York. Consequently it is the hardiest of its class.

Price.—18 to 20 inches, \$1.00 each.

Biota Aurea Conspicua. (A new variety.)—Growth more erect than the Aurea; foliage intense gold, some of its branches being of a solid metallic tint, others suffused with green.

Price.—18 to 24 inches, 75c. each.

Kosters Colorado Blue Spruce.—A rare elegant tree with foliage of a rich blue. One of the most distinct and striking of all the Spruce family. A free grower and perfectly hardy. The finest of all blue evergreens, selected from the Colorado Blue, of extra fine color and compact free growth.

Price.—\$1.00 each. Extra nice trees, \$2.00 each.

Retinospora Plumosa.—A very hardy species of graceful habit, with fine, delicate green foliage. One of the best.

Price.—12 to 18 inches, 50c. each.

Retinospora Plumosa Aurea.—This variety is one of the handsomest and perhaps the most useful of the genus. It is entirely hardy, of rapid growth, its branches tipped with bright, golden colored foliage retained throughout the year. When properly pruned there is scarcely a green leaf visible. The foliage is exceedingly fine and soft, resembling, as its name implies, a golden plume.

Price.—12 to 15 inches, 50c. each.

Retinospora Squarrosa.—Of rapid growth; pyramidal form; branches drooping and graceful; foliage of a whitish hue, very delicate and beautiful. An elegant plant.

Price.—15 to 18 inches, 60c.

American Arbor Vitae.—It is very hardy and easily transplanted, few or no plants ever failing if properly trained specimens are obtained. It forms a most desirable and ornamental screen to divide the lawn from other parts of the ground; or for any other purpose.

Price.—4 to 5 ft. 35c. each; \$3.50 per dozen. \$14.00 per 100.

3 to 4 feet, 30c. each; \$3.00 per dozen; \$12.00 per 100.

Norway Spruce.—A well-known species of great hardiness; of rapid growth; pyramidal form; dark green foliage; branches sweeping, feathery and very graceful.

Price.—2 to 3 feet, 25c. each; \$2.50 per dozen; \$8.00 per 100.

3 to 4 feet, 30c. each; \$3.00 per dozen; \$12.00 per 100.

4 to 5 feet, 40c. each; \$4.00 per dozen; \$15.00 per 100.

Norway Spruce.

Magnolias.

Prices.—1 to 2 feet, at 75c. each. One of each variety for \$1.25.

M Conspicua. (Chinese White.)—One of the most beautiful of the Chinese Magnolias. Well known low tree, the flowers of which appear before the leaves. This variety is covered in May with masses of snow-white, lily-like flowers.

M. Soulangeana.—In habit it closely resembles Conspicua; shrubby and branching while young, but becoming a fair-sized tree. Flowers white and purple, cup-shaped 3 to 5 inches in diameter. One of the hardiest and finest of the Magnolias. Blooms later than Conspicua.

MAIL ORDERS ONLY AT PRICES QUOTED ON 4th COVER PAGE.

Hardy Vines and Creepers.

Wisteria Sinensis.

Price.—15c. each; \$1.50 per dozen.

Wisteria Sinensis.—This is one of the most beautiful climbing plants we have. It grows very rapidly and blooms profusely. The flowers are a beautiful shade of blue hanging in graceful pendulous clusters.

Wisteria Sinensis Alba.—Pure white flowers, borne in great profusion in large clusters; very showy and desirable.

Price.—15c. each; \$1.50 per dozen.

Ampelopsis Veitchii. (Japan or Boston Ivy.)—This is one of the finest climbers for covering walls, as it clings firmly to the smoothest surface, covering it smoothly with over-lapping leaves which form a perfect mass of foliage.

Price.—15c. each; \$1.50 per dozen.

Clematis. (PANICULATA.)—It grows and thrives anywhere and is a very rapid grower and profuse bloomer. The flowers are pure white, borne in large clusters converting the plant in to a perfect mass of white.

Price.—15c. each; \$1.50 per dozen.

Hedges.

American Arbor Vitae.

American Arbor Vitae.—One of the most desirable evergreen hedge plants; best adapted for screens or wind-breaks.

Price.—4 to 5 feet, \$14.00 per 100.
3 to 4 feet, \$12.00 per 100.

Hemlock.—This makes one of the most beautiful evergreen hedges.

Price.—2 to 3 feet, \$17.50 per 100.

Norway Spruce.—Popular variety; makes a very dense and compact hedge; takes the place of a fence.

Price.—2 to 3 feet, \$8.00 per 100.
3 to 4 feet, 12.00 per 100.
4 to 5 feet, 15.00 per 100

CALIFORNIA PRIVET.—An exceedingly beautiful shrub. Very vigorous and hardy; from pyramidal; foliage deep green, bright and glossy. Decidedly the finest and best of all plants for forming an ornamental hedge, its foliage being so abundant as to produce a wall of the deepest, richest green imaginable. It is the most rapid grower of all the half-evergreen plants used for low hedges around private lawns and is the universal hedge plant. It is practically evergreen, although deciduous, strictly speaking. The easiest of all plants to make a permanent hedge of in the poorest of soils. It will grow in a half shaded situation better than any other shrub. Its foliage is solid and rich and it gives better results in ordinary plantings that have to take care of themselves and still be more beautiful than any other shrub. It is among shrubby what the Virginia Creeper is among vines and has made more miserable spots beautiful than any other shrub. It possesses the great merit of producing a hedge at once instead of two or three years to become established, as with Osage Orange and many others. It is easily and quickly pruned, and being without thorns, is a pleasant task. We have an immense stock of extra fine plants of this popular hedge plant.

| Prices. | per 100 | per 1000 |

Japan Maples.

The Japan Maples are becoming more and more popular as they become better known. Their chief beauty and recommendation is their dwarf habit and attractive appearance. Some of them have foliage of medium size and rich bright hues, while that of others is deeply cut and of peculiar form. Planted singly they are effective but in groups they are remarkably attractive the year round.

We are offering them at exceptionally low rates as they have always been held previous to this at from \$1.50 to \$3.00 each.

OUR PRICES.—\$1.25 each; 3 for \$3.00, and 6 for \$5.00.

Atropurpureum.—Forms a bushy shrub, foliage dark purple and deeply cut, very ornamental, the hardiest and one of the choicest small trees or shrubs offered.

Atropurpureum Dissectum.—One of the most striking and handsome varieties of the species, dwarf and weeping, leaves beautiful rose when young, changing to a deep and constant maroon, deeply and delicately cut and having the appearance of an elegant out-door fern. The young growth is long, slender and pendulous and of deep maroon color.

Atropurpureum Variegatum.—Foliage large, deeply cut, dark purple with nearly one-half of each lobe of a bright scarlet, and marginal markings of gold. Indeed a variety of great attractiveness.

Cshiu -Beni.—Coloring very much like *Atropurpureum*, but with smaller and more deeply cut leaves. Nine lobes, widely separated, tree of a dwarf and weeping habit.

Sanguineum. (Blood Leaved.)—Of dwarf habit and round form, foliage five-lobed and serrated, reddish crimson. A charming variety.

Washi-no-o.—A striking dwarf weeping variety with deeply cut leaves and dissected lobes of solid dark green. Very hardy.

Ramblers.

One Each of any Six Varieties for \$1.00.

Philadelphia Rambler.—This variety is identical in all respects to the *Crimson Rambler*, except in color, which is a deeper, brighter and more intense crimson.

Price.—25c. each.

Crimson Rambler.—Perfectly hardy; wonderfully free flowering; rich glowing crimson; intensely bright and vivid in color. The plant is a strong rampant grower, making shoots ten to twelve feet long in a season after the first year or when well established.

Price.—Extra strong 2 year, 20c. each.

Pink Rambler.—The flowers are borne in clusters, as many as 69 being frequently found in a single cluster; they are deep pink, quite full and exceedingly fragrant.

Price.—Strong 2 year, 20c. each.

Yellow Rambler. (*Aglaiia*.)—Flowers of medium size in immense clusters. Color a clear yellow. It is a rampant grower.

Price.—Strong 2 year, 20c. each.

Dorothy Perkins.—Another climbing Rose, which in general habit closely resembles the *Crimson Rambler*, but of a beautiful shell pink, full and double, and of an unusually large size for a cluster rose. The trusses are made up of from 30 to 40 flowers, and frequently 50 to 60 flowers on the stronger branches.

Price.—2 year, 15c. each.

Prairie Queen.—Bright rose red, large and cupped; a splendid grower.

Price.—2 year, 25c. each.

Tennessee Belle.—A robust, vigorous climber and a free bloomer.

Price.—2 year, 20c. each.

Baltimore Belle.—Pale bluish, nearly white; one of the best white climbers.

Price.—20c. each.

The Empress of China.—Is a hardy perpetual blooming climbing rose, it resembles a tea rose; blooms the first year. The color is soft dark red, passing to light pink.

Price.—20c. each.

MAIL ORDERS ONLY AT PRICES QUOTED ON 4th COVER PAGE.

Roses.

Your attention is especially called to the fact that our roses are strong and thrifty plants that are ready for blooming this season.

The New Roses, "Baby Ramblers."

Prices.—Strong Plants, 25c. each; \$2.50 per dozen.

The Everblooming Dwarf Crimson Rambler.

Baby Ramblers.

account of the formation of the clumps, being covered with flowers the whole summer, and will be especially valuable for culture in pots. Having studied this plant it is with confidence that we recommend it to our trade.

Catherine Zeimet. (White Baby Rambler.)—Pure snow-white, blooms in profuse clusters; dwarf habit, same as the Crimson and Pink Baby Ramblers; ever-blooming and hardy.

Anny Mueller. (Pink Baby Rambler.)—Brilliant, shining pink flowers in profusion, with long petals, gracefully curved and slightly twisted. A cross between Crimson Rambler and George Permet, same in habit as the Crimson Baby Rambler. Splendid for bedding and dwarf hedges; everblooming and hardy.

This great novelty is a cross between Crimson Rambler and Glorie des Polyanthus. It preserves the prolific flowering quality of the latter, but with the color of the Crimson Rambler (clear brilliant ruby rose.) It is called a perpetual (dwarf) Crimson Rambler. The bush is very vigorous and absolutely hardy.

It blooms in clusters continuously. The period of blooming is not interrupted until the first hard frost. We have counted as many as 100 flowers on a single panicle.

This Rose will be very popular on ac-

Hybrid Perpetual Roses.

Prices.—Extra strong plants, 25c. each; \$2.50 per dozen.

Anna de Diesbach.—Clear, bright rose, very large and fine shaped, full and fragrant.

Magna Charta.—A splendid sort; bright clear pink, flushed with violet crimson; very sweet; flower extra large; fine form; very double and full; a free bloomer.

General Jacqueminot.—Deep brilliant shade crimson, with large petals, globular with high center, a well-known favorite, still one of the best.

Dinsmore.—A general favorite for the garden; hardy, vigorous; early, constant and profuse bloomer; large, handsome and perfectly double. Rich cherry-red; fragrant.

Gloire Lyonnaise.—A pale shade of cham- ois or salmon-yellow, sometimes passing to creamy white, finely tinted orange or fawn. The nearest yellow Hybrid Perpetual Rose, and a grand one.

Gruss an Teplitz.—Hardy in all sections; grows freely to a height of four or five feet; vivid dazzling, fiery crimson; sweetly fragrant; produces a mass of gorgeous blooms on long stems.

Madame Charles Wood.—Bright, fiery red; a generously large rose, very double, full and quite fragrant; handsome, showy, and a constant bloomer throughout the entire season. A magnificent and deservedly favorite hardy variety.

Madame Masson.—Perfectly hardy, and increasing in favor; massive, double and full flowers of intense red with crimson hue, highly perfumed; a constant and profuse bloomer, very attractive and striking.

Baroness Rothschild.—Light pink, very large cup; very symmetrical. Free bloomer.

Paul Neyron.—Deep rose color, splendid foliage and habit, with large flowers.

Coquette des Alps.—One of the finest pure white hybrid perpetuals; large, full, finely formed flower; color pure white,

sometimes faintly tinted with pale blue.

Ulrich Brunner.—Extra large, hold flowers, full and globular. Color rich, showing crimson., elegantly flamed with scarlet.

Coquette des Blancches.—A finely formed pure white rose. One of the finest and most beautiful of the white Hybrids. Very suitable for cemetery planting.

Prince Camille de Rohan.—Very dark, rich velvety crimson, passing to intense maroon, shaded black.

Baron De Bonstetten.—Large, full and quite double blooms; rich dark red passing to deep velvety maroon; very fragrant and beautiful.

Margaret Dickson.—Pure waxy-white flowers of magnificent form and size with large shell-shaped petals and pale flesh centre; produced singly on long stiff stems; vigorous and absolutely hardy; considered the best white hybrid perpetual.

Alfred Colomb.—Cherry crimson; large globular; an erect grower and abundant bloomer.

Mrs. John Lang.—A splendid, constant-blooming Hybrid Perpetual, perfectly hardy, with immense flowers, full and double, borne in great profusion on long, stiff stems, and exceedingly sweet. The color is a clear, bright, shining pink, exquisitely shaded. The buds are long and pointed.

Francois Levet.—A very beautiful rose. Soft china pink, delicately shaded carmine and blush, large, finely-formed flowers, delightfully fragrant.

John Hopper.—One of the most reliable and satisfactory Hybrid Perpetuals ever grown. The flowers are large, very regular and full. Color a brilliant rose, changing to a bright, glowing pink, shaded with rich scarlet. Very sweet and a profuse bloomer.

MAIL ORDERS ONLY AT PRICES QUOTED ON 4th COVER PAGE.

Everblooming Hardy Roses.

Prices.—25c. each; \$2.50 per dozen.

Kaiserin Augusta Victoria.—This is one of the grandest of all roses. It is a strong, vigorous grower, producing buds and flowers of enormous size. Color, pure white. We have no hesitancy in saying that this rose is unequaled by any other variety in its color. It is a grand winter bloomer, and is largely forced for cut flowers. A grand garden rose on account of its vigorous growth and hardiness.

Mademoiselle Franzisca Krueger.—A vigorous grower and constant bloomer for out of doors; large blooms of deep, coppery-yellow, tinged at times with pink; always beautiful.

White La France.—Large and finely formed buds and blooms having broad petals of silvery white with very deli-

cate pink shadings. A fragrant, free and continuous bloomer.

La France.—One of the most beautiful of all roses, and is unequaled by any in its delicious fragrance; very large, double, and superbly formed; it is a light, silvery rose, shading to pink. A good grower, and produces a profusion of most perfect flowers. Probably more highly prized by lovers of roses than any other variety.

Duchess of Albany.—It is identical with La France excepting in three points. They are: a vigorous growth, a larger and more expanded flower, and a deep, even pink in color, not shaded, but what is called a solid color. The growth of the plant is exceedingly vigorous and the flowers, which are thrown up well above the foliage, are produced in extraordinary profusion, the plant being covered with handsome flowers.

Moss Roses.

Price.—Strong, 25c. each.

Henry Martin.—Rich, glossy pink, elegantly tinged with crimson; large, globular flower; very full and sweet, finely mossed.

Countess of Murinais.—One of the finest pure white Moss Roses; the buds are elegantly mossed; flowers large, full and fragrant; a valuable and beautiful variety.

Yucca Filamentosa.

(An Evergreen.)

Price.—2 year plants, 10c. each.

Rudbeckia, "Golden Glow."

Price.—Strong plants, 5c. each; 50c. a dozen.

Lily of the Valley.

Price.—10c. each; \$1.00 per dozen.

Rhododendrons.

There is nothing, in our opinion, that so completely unites grandeur and usefulness in arbor culture as the Rhododendron. The dark green color and glossy richness of its persistent foliage, in connection with the variety and beauty of color of its remarkably large, conical flowers, render an effect that almost begs description. The plant prefers a peaty soil and a situation of partial shade, and yet neither of these considerations is indispensable to the successful growth of plants, providing particular care be given in cultivation. Under the most favorable circumstances as to soil and location, special care in cultivation is required. When planted on other than peaty soil, use a bushel of such soil if it can be obtained, to each plant, in lieu of the soil thrown out in making the hole. After the plants are set, cover the ground well about them with six inches of good manure, and renew this from time to time as it wastes away. In Winter a partial protection of fine boughs or some other wind-break is necessary for the first few years. Water well in dry weather during Spring and Summer. After the plants are done blooming cut off all the seed vessels about midway of the length of the stems in order to secure bloom for the ensuing year. Keep the ground mellow about the plants and see that the manure is replaced after each time of digging. If these directions are rigidly followed, success will be almost assured. We have a large collection, embracing the best varieties of the hardy species.

List of Varieties.

Comprises the best Hybrids of the following colors:
Crimson, White, Rose, Pink, Purplish Rose, and Rosy Pink.

Prices.—For nice strong grafted plants nicely furnished with buds and packed with a good ball of earth, \$1.50 each. These plants run about 2 feet in height. Larger plants will be quoted upon application.

Field Corn.

We have a limited quantity of first-class Seed Corn of a cross bred corn that is noted in this neighborhood for its small cob and for its early maturity. Last year was a very poor one for corn because of the late spring and because of the early fall which made it impossible for long season corn to properly mature. Many cribs of corn are spoiling and but very few men have a first-class corn which will germinate because of its immature condition when gathered. Ours has been tested and found to be in every respect as well matured as it could have possibly have been with the ordinary season. Last year we planted at our usual time which is about June 1st to the 15th, and yet we had all our corn cut up before the first frosts came and it was ready to cut then. It was the wonder of the neighborhood and has attracted attention for years.

It is a cross between a yellow flint and a white dent corn and the result is a very pale yellow corn with a very small cob with large deep grains.

Prices.—By mail, postpaid, 30c. per quart.

By freight or express, 50c. per peck; \$1.50 per bushel.

MAILING PRICES.

We Can Ship Mail Orders Any Time Desired Between October
15th and May 15th.
